Note: At this point (February 2009) all the entries for the 1881 census have been copied from the set of CD's published by The Church of Jesus Christ of Latter Day Saints. Therefore, they are a transcription of a transcription, with all the potential for error that that entails.

I intend to check against the copies of the enumerators' books that are now available online at ancestry.com or FindMyPast.co.uk, and so this will be updated in the coming months after I have uploaded the rest of the lists etc. that I have for Oborne
